## What is the NHS Knowledge & Library Hub?

The NHS Knowledge and Library Hub is a discovery system which connects NHS staff and learners seamlessly to a range of high quality knowledge and evidence resources all in one place. It offers an intuitive search experience for quick searches and options for in-depth searches. It includes:

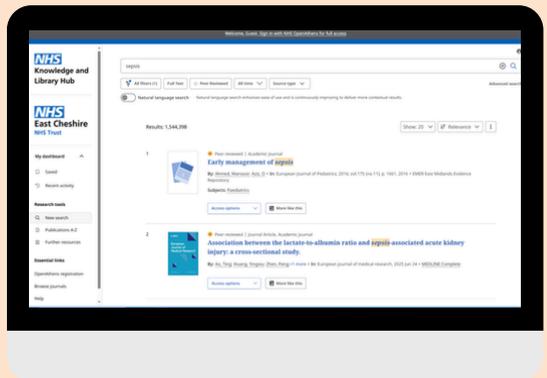

- over 7,000 journals
- books and e-publications
- one-click access to full-text, request a copy or contact your NHS library
- links to clinical decision support tools such as BMJ Best Practice and UpToDate
- NICE pathways and guidelines
- databases like Medline, EMBASE and CINAHL.

## How can I access it?

- 1 Visit <https://library.nhs.uk/eastcheshire>
- 2 Click in the grey bar at the top of the page and enter your NHS Athens username and password.  
To register for an NHS Athens account visit:  
<https://openathens.nice.org.uk>

## Searching The Knowledge Hub

Searching the Knowledge Hub is easy - enter your search terms in the 'Keyword' box, and it will suggest popular terms. Click the search button or press enter. You will be shown a list of search results. Results can be filtered using the options below the search bar. To access an article, click the 'Access options' drop down. From this list, you can either access the full-text or if this isn't available, select 'Request this item'. If you have already logged in with your NHS Athens account the full-text should open directly, otherwise you will be prompted to login.

## Advanced searching

An Advanced search or PICOT (Patient - Intervention - Comparison - Outcomes - Time) search are both available to help refine your search. For help with advanced searching contact Holly to arrange a one-to-one training session.

## Further resources

On the left-hand side of the Hub there is a link to further resources. For help searching the additional resources, get in touch and arrange a one-to-one training session. We can show you what resources are appropriate for your search, and how to best search and use them.

## Additional information
